

Job Posting – Clinical Research technician

Modulim is a venture backed medical device company that is helping identify and address some of the most devastating consequences of diabetes. We are a spin-out of the Beckman Laser Institute at the University of California, Irvine and our team consists of some of the leading experts in applying optical imaging technology to improve health care. If you are looking for an opportunity to be part of a dedicated growing team that is changing health care - this is the place for you.

The Opportunity:

- Part-time hourly position
- Clinical data collection with non-invasive imaging device
- Perform test with accuracy and thoroughness
- Follow protocols and SOPs for procedure
- Prepare preliminary reports for interpretation
- Keep track and organize patient records
- Maintain a clean and organized environment
- Responsible for maintenance and quality assurance of device

The Qualifications:

- Associates or bachelors degree (or equivalent experience) in biology, nursing, or relevant fields
- Some experience working in clinical environments
- Some experience in using medical diagnostic equipment (e.g.. ultrasound or others) is a plus
- Good organizational skills and basic proficiency in data tracking (excel, notes)
- Experience in interacting with patients
- Reliable transportation
- Must possess a valid driver's license and good driving record
- Must have strong verbal and written communication skills
- Current immunizations required

Location

- Southern California
- The job entails working at clinical sites in greater San Diego area.
