

## Job Posting – Clinical Affairs Manager

Modulim is a venture backed medical device company that is helping solve some of the most devastating consequences of diabetes. We are a spin-out of the Beckman Laser Institute at the University of California, Irvine and our team consists of some of the leading experts in our field. If you are looking for an opportunity to be part of a growing team that is changing medicine - this is the place for you.

### The Opportunity:

- Assist in planning (study design, budget, SOPs) clinical studies/pilots with novel imaging device
- Write and submit IRB protocols for clinical studies
- Develop internal SOPs for best clinical practice
- Review incoming data from medical device clinical studies
- Develop educational collateral for study sites
- Keep, track, and organize clinical research forms
- Manage collaborators and clinical partners
- Work as an interface between Product and clinical specialist teams.

### The Qualifications:

- Advanced (MSN, MS or PhD) degree or equivalent experience in health care, life or medical science, nursing, biology, statistics, biomedical engineering preferred
- 5+ years or equivalent experience in conducting/managing clinical relationships
- Experience in medical device industry
- Experience with data management (i.e. excel)
- Must have strong verbal and written communication skills
- Motivated and able to handle multiple projects
- Excellent communication skills

### The Benefits:

- Generous paid-time-off policy & employer contribution toward medical insurance
- Employee-paid dental, vision and a variety of supplemental insurance policies available
- Employer-paid \$10,000 Basic Life Insurance
- 401(k) Plan with matching benefits
- Stock option plan

### Location

- Irvine, California
